-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to because the reference number 24 in the center area is not the upper flange area as described in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities: there is no support in the specification for the term "molded" as claimed in claim 10. The support for the claimed term of molded can be added to the specification on page 7, line 10 to

Art Unit: 3765

indicate that the brassiere is "preferably molded". Also throughout the specification the terms "silicon and silicone" are used. Consistent terminology should be used throughout the specification. Also there is no support for the language of claim 6 that describes that the flanges extend outwardly from a portion of the periphery of the cup directly opposite the clasp. Such a description should be added to the specification to provide the support for the claimed subject matter.

Appropriate correction is required.

Claims 1-14 are allowed.

None of the cited references, alone or in combination, disclose the brassiere with the flange having a first surface, an upper tab and a side tab constructed as claimed and as including an adhesive lining in addition to a clasp between the cups as in claim 1. None of the cited references disclose the removable nipples as claimed in claim 4 or the method of wearing a brassiere with the removable nipples as claimed in claim 11.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
